- Reviewed letter from Martin, Lord & Osman
- Reviewed letter from Paul King concerning survey work

Landon Leach:

Landon approached the Board to inform them of his present and future plans for LCR Nurseries. He lost his greenhouse due to the weight of snow over the winter and wants to rebuild a smaller one but eventually will be as large as the one he lost. Jack thought that because the layout will be different, that Landon should go through the Planning Board first for approval. Once the Planning Board has approved the building permit, so will the Selectmen. Dan agreed.

Miscellaneous:

The AA informed the Selectmen of a Gravel Class that is going to take place at the Bartlett Town Hall on May 8, 2008. This class is hosted by the Department of Revenue and will teach the laws associated with gravel and gravel pits. The AA will attend along with Jack and Dan.

Dan and Jack both checked on the trash problem on Tabor Circle in place of Bob as health officer since he’s away on vacation. They reported that the trash has been removed but the yard is very messy. They spoke with Colette Strong, a neighbor, who was supposed to write a letter of complaint and have other neighbors sign it so the health officers can move forward to enforce the
laws. As of the time of the meeting, a letter had not been submitted to the Selectmen’s office.

At 5:00 p.m., Dan motioned to adjourn, Jack seconded and all were in favor.

Respectfully Submitted,

Kathleen Vizard
Administrative Assistant
