#### **Paul King:**

Paul King performed the perambulation of town lines between Madison and Albany. He came before the board to explain his findings and finished work. He compiled it all in a report that was reviewed and signed by the Albany Board of Selectmen and will be reviewed by the Madison Board of Selectmen. Paul reported that there were many markings that he found to be old and either disintegrated or barely noticeable. He placed granite bounds to mark the boundaries and used fluorescent paints to differentiate between Albany and Madison. Paul recommended that town lines be surveyed and reblazed about every seven years and about every fourteen years, the bounds should be repainted.

Dan asked Paul if the boundary lines between Albany and Waterville Valley should be perambulated, where it is winter and easily navigated over the marshy areas. Paul said that most of the border with Waterville Valley is the property of the White Mountain National Forest. All agreed that the perambulation should be taken care of by the WMNF.
